Report on

“A TWO-DAY WORKSHOP ON IoT”

The Institute Innovation Council (IIC), Departments of CSE are jointly organized a workshop on **“A TWO-DAY WORKSHOP ON IoT”** to all IV- B. Tech ECE, EEE & III B. Tech AIDS students.

Resource person: Sri S. Karthikeyan, Technical Head, Edgate Technologies Private Limited.

Event Organized by : IIC & CSE AITS, Kadapa.

Event Name : “A TWO-DAY WORKSHOP ON IoT”(Workshop)

Venue : IoT Lab, AITS, Kadapa.

Date : 08-11-2022 & 09-11-2022.

Event Strength : 80 Students

The poster is for a two-day workshop on IoT. It features the Annamacharya Institute of Technology & Sciences logo at the top left. The text on the poster includes: "ANNAMACHARYA INSTITUTE OF TECHNOLOGY & SCIENCES", "Utukur, C. K. Dinne (V&M), Kadapa, YSR Dist.", "Approved by AICTE, New Delhi & Affiliation to JNTUA, Anantapuramu.", "Accredited by NAAC with 'A' Grade, Bangalore.", "INSTITUTION'S INNOVATION COUNCIL", "Ministry of Education's INNOVATION CELL", "A Two Day Workshop on IOT", "8th & 9th November 2022", "by S KARTHIKEYAN, Technical Head", "Edgate Technologies Private Limited". There is also a small image of a person working on a laptop and a large image of a circuit board with IoT symbols.

Objectives of the Event:

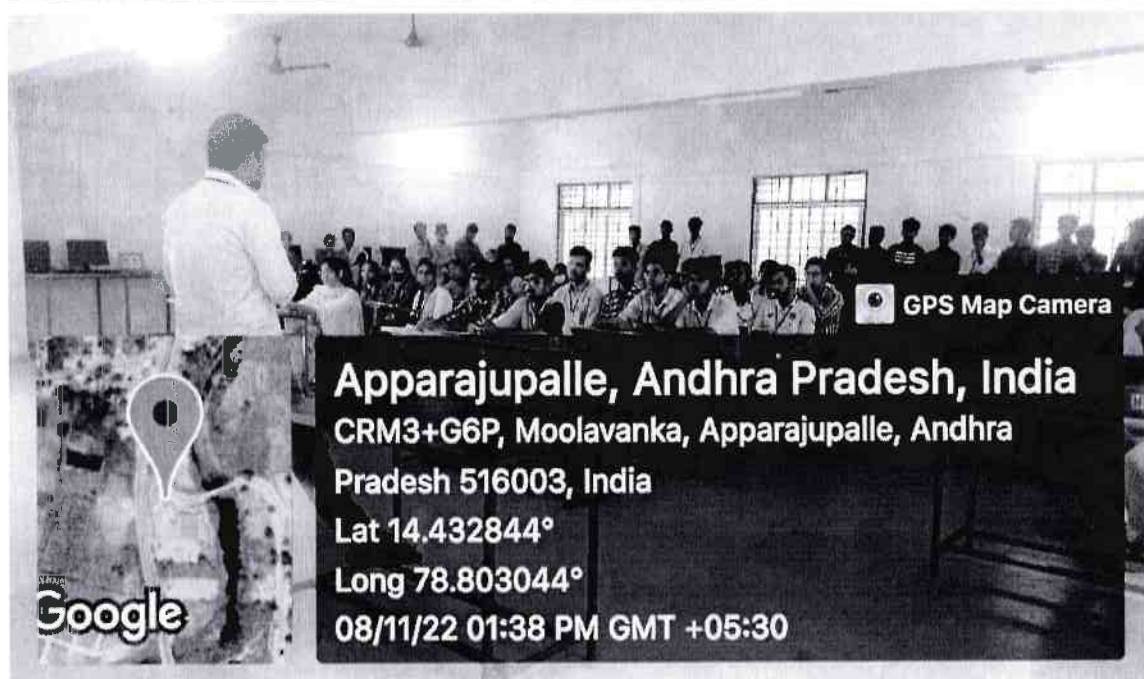

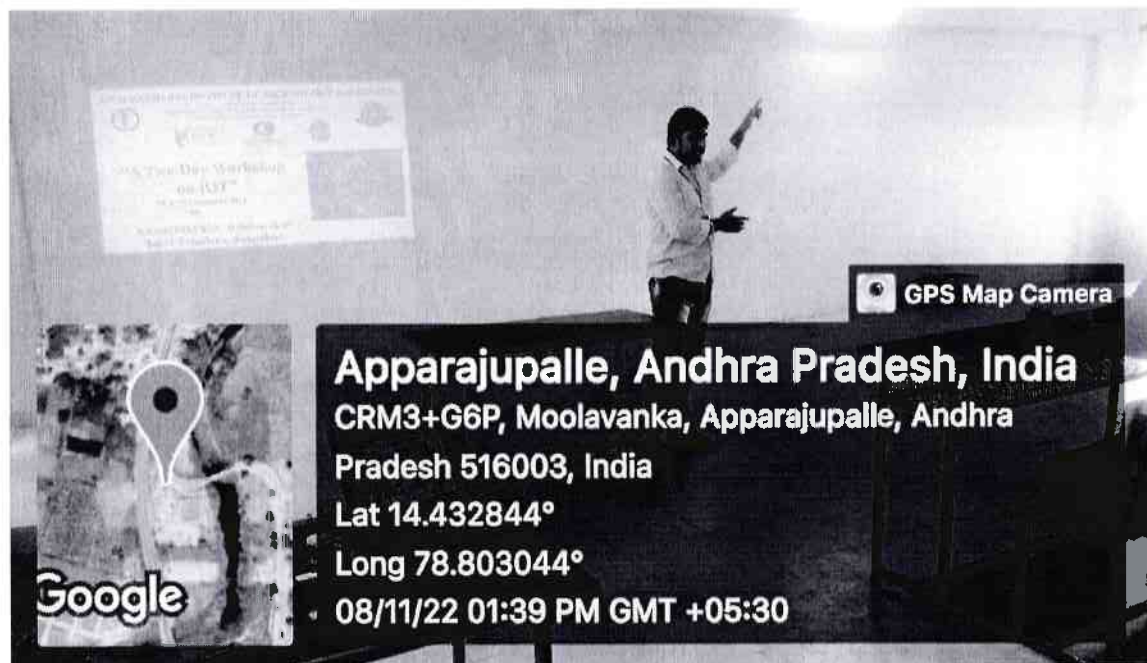

- The Internet of Things (IoT) is aimed at enabling the interconnection and integration of the physical world and the cyber space.
- IoT covers a wide spectrum of applications, including the detailed real-time sensing of our environment and the embedding of connected intelligence into everyday objects.
- The fundamental objective of IoT is to obtain and analyze data from things (devices) that were previously disconnected from most data processing tools. This data is generated by physical things (devices) deployed at the very edge of the network - such as motors, light

bulbs, generators, pumps, and relays - that perform specific tasks to support a business process. IoT is about connecting these unconnected devices and sending their data to the cloud or Internet to be analyzed.

- The influence of IoT reaches across an entire ecosystem of things from consumer products to advanced manufacturing automation solutions. From industry to industry, IoT solutions impact the way companies design, manufacture, operate, and service products, as well as, redefine and optimize existing business processes across the value chain.

Outcomes of the event:

- Able to understand the application areas of IoT.
- Able to realize the revolution of Internet in Mobile Devices, Cloud & Sensor Networks.
- Able to understand building blocks of Internet of Things and characteristics.
